Joe Frond, the alleged alien enemy, who was arrested by Sheriff Mosholder and Deputy Sheriff Lytle at the Lepley farm, near Millwood, will probably be taken to Camp Sherman and there interned for the remainder of the war.

Sheriff Mosholder was informed on Tuesday morning by District Attorney Bolen of Columbus that he was sending a deputy United States marshal to the city to convey Frond to Camp Sherman where he would be interned.

It is claimed that Frond served two years in the German army and that he worked in Cleveland, Akron and Toledo. It is believed by the officials that Frond may be a German spy. He is well dressed. He speaks with a pronounced German accent.

## VERY LARGE OVER- SUBSCRIPTION IN KNOX -- \$274,350

**Wonderful Result Attained  
In The Liberty Loan  
Campaign**

**FIGURES ARE GIVEN  
FROM EACH PRECINCT**

**Totals Also Show Amount  
Subscribed At The  
Banks**

(William A. Ackerman, Chairman)  
(By Raymond C. Brower of the Federal Reserve Bank.)

The Fourth Liberty Loan is history. Knox county did what we all knew she would; she cheerfully met the huge demand made upon her resources.

And more—we confidentially believe she will meet other big demands in the same big way.

A really wonderful result has been attained. Aside from raising the quota, a big task in itself, the government has enlisted the active support of over six thousand individuals in the county, or in other words, one in every five.

In a general way that means one buyer in every family in the county, though it is only an average. We sincerely hope that the day will come when every family will, without exception, buy Liberty Loan bonds.

There are still two hundred or more individuals in the county that are known to be well able to buy who have not yet done so. That is a small percentage however, and even they are rapidly being convinced that it is to their interest to buy.

The total subscriptions in the county reached the huge sum of \$1,310,350. The county quota was \$1,036,000. Think of it! An over-subscription of \$274,350—only \$100,000 less than the entire county quota of the first loan.

The number of subscribers to date is 6,040 and will eventually reach 62,000. Again we marvel. More than twice as many as in any loan ever attempted in this locality.

In reading these wonderful figures the various plants and organizations of the county played a leading part. They showed a zeal and patriotism that was inspiring to the committee.

The following organizations were successful in having 100 percent of their employees buy bonds of the Liberty Loan:

Ohio Fuel Supply Co., Central Repair Department, C. & G. Cooper Co., Pittsburgh Plate Glass Co., Mt. Vernon Foundry and Engineering Co., Pennsylvania Railroad Shops, Hope Forge & Machine Co., Kelsor-Dowds Co., Republican Publishing Co., Northwestern Elevator & Milling Co., F. B. Zeig & Co., and the J. B. Foote Foundry Co.

The Pennsylvania Railroad shops lead in the total amount of subscriptions, reaching the inspiring figures of \$55,800, with a total number of 418 subscribers, an average subscription of \$133.00.

All organizations in the county are entitled to great credit for the work accomplished.

A house to house canvass was made in every township and corporation outside of Mt. Vernon. That it was successful is attested by the fact that 24 out of the 29 precincts reached their quota. Clay, College, Liberty, Millford, and Morgan townships were the ones that failed.

Mt. Vernon is entitled to great credit for upon a published request practically every man and woman able to do so voluntarily went and bought bonds. Not all bought all that they were able to buy but nearly every one did something. A few who should have bought, failed to do so, but we are hopeful that further residence in the patriotic city of Mt. Vernon will convince even the most selfish of the wisdom of helping.

The committee especially wishes to thank those individuals who, by their

generous, patriotic and "ever ready to help" attitude meant so much to the success to the loan.

No government could live without them.

The complete summary of the loan is as follows:

Precinct	Quota	Subscribed

## POLITICAL ADVERTISING 3,000,000 tons of coal were used by the brewers of the country in 1917

The saloons probably used 3,000,000 tons more.

Schools, churches, stores and factories closed up for lack of fuel. Men, women and children suffered in cold homes.

STILL THE BREWERIES AND SALOONS WENT ON BURNING COAL TO PRODUCE AND SELL INTOXICANTS.

Miners who drank the intoxicants mined less coal. On July 12, 1918, the National Coal Association reported to Congress that "a comparison of the records of production of mines in wet and dry territories furnishes ample proof of the need of prohibition."

Thousands of railroad cars are used in transporting supplies to and from breweries.

Meanwhile people suffer lack of necessities and WAR PREPARATION IS HINDERED BECAUSE OF CAR SHORTAGE.

The liquor traffic always has been after the dollars REGARDLESS OF WHO WAS HURT.

But when the liquor traffic stands in the way of AMERICA'S WINNING OF THE WAR, thousands of Ohio citizens who voted "wet" in previous years have decided it is high time to abolish the liquor traffic altogether. It certainly is!
